TNX fr participation.

By the way: According to the rules of this activity, one period will take half a year. The present period will be finished at the end of June, 2018. In July the next period will start.

Note: No score for QSO's on the 60 mtrs band, because there is no exclusive frequency range for CW. Otherwise, only short QSO's are desired on this band.

DL1DXL: Also during this month I did not get any points for this activity. My new rig TS590SG provides scruffy signals with my bug. I did not succeed yet in finding the cause.

73 awdh / cu in August, when the next period is starting
